

Plague of Corruption – The 10% You Need to Know

Source: “Plague of Corruption – Restoring Faith in the Promise of Science” by Dr. Judy Mikovits & Kent Heckenlively (p = page #s)

List of Dr. Mikovits’ accomplishments. pp 119-121

First to isolate the retrovirus XMRV (Xenotropic Murine Leukemia Virus-Related Virus) and its association to ME/CFS (Myalgic Encephalomyelitis/Chronic Fatigue Syndrome), an inflammation of the brain & spinal cord. pXXII

A retrovirus is a “stealth virus” ...enters the host without alerting the immune systems. It may then lie dormant for years without causing harm. Before killing a person, a retrovirus will usually destroy their immune system. As a result, many retroviruses cause cancer. P X

They found the virus (XMRV) disappeared relatively quickly from the blood but would replicate to detectable levels upon any immune stimulation, such as from a vaccine. In other words, a vaccination could awaken a sleeping monster. p84

“Let me give it to you straight. The blood supply was and is not safe, and Ceres and the various government agencies know it.” pp95-96

The central issue identified by Dr. Mikovits is the use of animal tissues to grow viruses for vaccines, or to use in the development of other biological products, transferring those animal viruses into human beings where they are causing a cascade of human diseases, from autism to ME/CFS, cancer, and the new diseases of aging like Alzheimer’s disease pp62-63

Here are two things that cannot both be true; 1) Vaccines are as safe as sugar water & 2) Vaccines carry such risk that nobody is liable for injury. Claims may only be brought in a special court, where the parents of vaccine-injured children face off against Department of Justice attorneys. This special “Vaccine Court” was established by law under the 1986 National Childhood Vaccine Inquiry Act. pp112-113

“As of this writing, the Vaccine Court has paid out more than four billion dollars in claims to children who have been injured by vaccines.” p114

“The truth is that vaccines are so dangerous that the liability from one shot ... was so great that the pharmaceutical companies didn’t want to face such scenarios in the future.” p113

“...it appeared to me the pharmaceutical companies had pulled off a terrible trick, getting the US government to be their shield against claims of consumer harm.” p127

*“Vaccines are harming a certain group of children as they go for their pediatric wellness visits, the government is concealing this information from the doctors, and **the children who are affected are damaged for life**. And the government lawyers, and probably their superiors, knew this since at least 2007.”* p134

If our data were allowed to stand, the inevitable result would be a massive financial catastrophe for the world’s pharmaceutical companies because of their negligent use of animal cell cultures to produce vaccines.... p10

Dr. William Thompson, a senior scientist at the Center for Disease Control, revealed that from the years 2001 to 2004 the federal government covered up links between the MMR (measles-mumps-rubella) vaccine and autism... p36

Dr. Timothy Cunningham a senior scientist at the Center for Disease Control in Jan 2018 said “Some of the patients I’ve administered the flu shot to this year have died... We have seen people dying across the country of the flu, and the one thing they nearly all of them have in common is they got the flu shot.” On 4/3/18 his body was found floating in a river. **Ruled suicide**. pp43-44

Dr. Jeff Bradstreet was one of the premier physicians in the US treating vaccine injury. On 6/19/15 his body was found floating in a river, dead of a single gunshot wound to the chest. **Ruled suicide**. pp33-37

Action Plan to fix vaccine problem <https://tinyurl.com/y7n6pl2c>

1. Repeal National Childhood Vaccine Inquiry Act & make pharmaceutical companies liable for their products. This ends the Vaccine Court.
2. 5 year moratorium on vaccine injection until they are tested for safety.
3. Close FDA.
4. Close CDC.
5. Repeal Bayh-Dole Act which allows federally funded scientists to patent discoveries. The intellectual property was paid by taxpayer & they own it.

Action Plan for personal health pp186-191

1. Drink deuterium-depleted water.
2. Fasting to burn our own fat stores.
3. Eat healthy fats. No low fat products.
4. Cannabis.
